

Quality Policy

The following Quality Policy Statement defines the Organisational Aims and Objectives of the Company in order to operate and maintain a systematic and integrated approach to all technical and business operations.

The scope of services can be summarised as follows:

“Provision of structural and civil engineering consultancy services, including associated project management activities within the public and private sectors.”

The following policy statements have been established and agreed by the Senior Management team to define the fundamental principles of the Quality Management System of the Company:

- a) To implement, maintain and continuously improve the Integrated Management System (IMS) in compliance with ISO 9001 covering key aspects of the company’s technical and business activities and operations and ensuring that the documented procedural requirements of the process and systems are realistic and achievable.
- b) To set annually and continuously monitor Key Objectives to measure the effectiveness of the IMS. Key Objectives will be identified by review of the Organisational Context, Results of Management Review and Audit Findings. These Objectives will be monitored in the Business Issues Register.
- c) To satisfy Client requirements, complying with applicable standards and statutory regulations, and providing a responsive, flexible and innovative approach.
- d) To ensure an active commitment and participation by Top Management in the implementation, review and development of the IMS and Quality Policy and, to ensure that all members of staff are given the time and forum to communicate their views and recommendations with respect to all matters relating to continuous improvement of the processes and systems.
